

dvutil/fdstreambuf.h

string

stdexcept

usockstreambuf.h

```
graph BT; usockstreambuf.h --> dvutil/fdstreambuf.h; usockstreambuf.h --> string; usockstreambuf.h --> stdexcept;
```

The diagram illustrates the dependencies of the `usockstreambuf.h` header file. It is represented by a black box at the bottom. Three blue arrows originate from its top edge and point to three header files positioned above it: `dvutil/fdstreambuf.h` (a white box with a black border on the left), `string` (a white box with a gray border in the center), and `stdexcept` (a white box with a gray border on the right).
