

string

stdexcept

```
graph BT; sslcontext.h --> string; sslcontext.h --> stdexcept;
```

sslcontext.h

The diagram illustrates the dependencies of the `sslcontext.h` header file. At the bottom, a black box contains the text `sslcontext.h` in white. Two blue arrows originate from the top of this box and point upwards to two separate white boxes with gray borders. The left box contains the text `string` and the right box contains the text `stdexcept`, indicating that `sslcontext.h` depends on both of these standard library components.
